Case studies

IICC – Yashobhoomi, New Delhi

DEPL Enterprise carried out the exterior painting of the India International Convention Centre (Yashobhoomi) in Dwarka, New Delhi — over 10 lakh square feet of concrete and facade surfaces, completed within a three-month deadline with boom lifts, day-and-night shifts and zero safety incidents.

Statue of Unity, Gujarat

DEPL Enterprise painted the foundation structures and surrounding cast-in-situ concrete panels of the Statue of Unity in Kevadia, Gujarat, so that they resemble the natural stone of the landscape — using Protec Guard Color imported from France, in two base shades and three opacities, between July and September 2018, ahead of the 31 October 2018 inauguration.
